UNDERGRADUATE
STUDENTS

西安交通大学
XI'AN JIAOTONG UNIVERSITY

INTRODUCTION OF XI'AN JIAOTONG

Xi'an Jiaotong University (XJTU), established in 1896, is a national key university directly administered by the Ministry of Education of China. It is one of the top 10 research universities in China and the member of C9 League—China's Ivy League. It is a comprehensive research university with academic advantages in science, engineering, management, medicine, economy, law and humanities.

There are more than 3000 international students from 141 countries and regions studying in Xi'an Jiaotong University. In 2013, XJTU was awarded by the Ministry of Education of China as the "Demonstration Base for International Education" due to its outstanding performance in the work of international student education. It is ranked No. 303 by QS World University Rankings 2021 and No.52 by QS Asia.

INTRODUCTION TO XI'AN JIAOTONG UNIVERSITY HEALTH SCIENCE CENTER

Health Science Center (HSC) consists of 4 schools, 1 department, and 3 affiliated hospitals, which are School of Basic Medicine, School of Public Health, School of Pharmacy, Department of Nursing, the First Affiliated Hospital, the Second Affiliated Hospital, and Stomatology Hospital.

Health Science Center has a current enrollment of 5,000 full-time students, including over 2,000 masters and doctoral candidates. The center offers 7 undergraduate majors. It consists of 3 disciplines and 47 sub-disciplines authorized to confer PhD degrees and 8 disciplines and 68 sub-disciplines authorized to confer Master Degrees. Among these, there are 4 nation-level key disciplines, 24 national key clinical specialist, and 12 Provincial and Ministerial level key disciplines. Moreover, 5 disciplines are ranked top 1% on the ESI (Essential Science Indicators) list, including Clinical Medicine, Molecular Biology & Genetics, Biology & Biochemistry, Pharmacology & Toxicology, Neurosciences and Behavioral Science.

PROGRAM INTRODUCTION

► MBBS

Started in 1995, XJTU has become the first university to develop English-medium MBBS program for international students in China. In 2000, the university set up English-medium Master's program of Medicine. Since 1995, it has cultivated more than 2000 international medical students from 63 countries, ranking on the top in the number for overseas graduates in China. In 2005, XJTU, authorized by the Ministry of Education, drafted the "Interim Provisions for Quality Control Standards on Undergraduate Medical Education in English for International Student in China".

Objectives

The MBBS program aims to educate international medical talents with solid medical knowledge, standard clinical skills and good professionalism while giving due consideration to the possible needs for them to serve in their motherland or other countries. The students will acquire the capacity to work in medical and health department, making contributions to the areas of patient care, education and research.

Program features

The length of study is 6 years and the whole program is divided into 4 stages.

Stage I: includes 2 terms, students focus on Chinese Language and Terminology;

Stage II: includes 5 terms, students learn basic medical courses;

Stage III: includes 3 terms, students learn clinical courses;

Stage IV: includes 2 terms, students do internship in hospital.

Curriculum Provision

Basic Medical Courses: Anatomy, Histology and Embryology, Pathology and Pathophysiology, Immunology, Microbiology, Pharmacology, Molecular Biology, Cellular Biology, Health

Statistics, Epidemiology, Medical Psychology, etc.

Clinical Courses: Diagnostics, Radiology, Internal Medicine, Surgery, Gynecology and Obstetrics, Pediatrics, Infectious medicine, Neurology, Psychiatry, Emergency medicine, Otolaryngology, Stomatology, Dermatology, Traditional Chinese medicine, etc.

Internship

In the last year of the MBBS program, students are required to have a one-year practical training in hospital. During Internship students will gain clinical experience directly from the doctors. A log book with detailed rotation will be handed to students to guide them finish the multiple tasks as required.

Graduation Exam

The graduation exam includes 2 parts, theoretical exam (accounts for 60%) and operation exam (accounts for 40%).

Degree Conferring

Those who are successfully qualified in all compulsory courses, fulfill internship and pass graduation exams will be conferred Bachelor of Medicine and Bachelor of Surgery.

► BDS

In 2014, based on the extensive experience and fruitful achievements, Stomatology Hospital of Xi'an Jiaotong University launched the program of Bachelor of Dental Surgery for international students with English as the teaching medium. Until now, the program has enrolled more than 100 international students from 15 countries studying for bachelor degree and master degree.

Objectives

The program of Bachelor of Dental Surgery aims to help students to gain both theoretical knowledge and practical skills in the field of dental science and to lay a solid foundation for a successful career as a dentist. In this program, students will develop both analytical and problem solving ability with ample proficiency in diagnosis and management of dental problems.
